## **DETAILED ACTION**

### ***Priority***

1. Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Great Britain on May 29, 1997.

### ***Specification***

2. Claims 7, 21-28, and 41-57 have been canceled without prejudice towards further prosecution. Claims 1, 8, and 29 have been amended.

### ***Double Patenting***

3. Claims 1-6, 8-20, and 29-40 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-6 and 8-57 of U.S. Patent No. 6,268,142. (July 31, 2001). Although the conflicting claims are not identical, they are not patentably distinct from each other because the species of alleles of IL-1 inflammatory haplotype of U.S. Patent No. 6,268,142 (claims 1, 8, 21, 29, 41, and 48) are the same inflammatory haplotypes 44112332 and 33441461 (claims 1, 8, and 29 as amended) of the instant application.
4. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed.

Art Unit: 1634

Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970);and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CAR 1.321© may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CAR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CAR 3.73(b).

#### ***Response to Amendment***

5. In response to amendment, the statutory type double patenting rejection, 112 (first paragraph) rejection and 103(a) rejection have been withdrawn. However, obviousness type double patenting rejection has been maintained.

#### ***Response to Arguments***

6. Applicant's arguments filed on October 7, 2002 have been fully considered but they are not persuasive. Applicant is hereby informed that the inflammatory haplotypes 44112332 and 33441461 (claims 1, 8, and 29 as amended) of the instant application are exactly same as IL-1

Art Unit: 1634

inflammatory haplotype of U.S. Patent No. 6,268,142 (claims 1, 8, 21, 29, 41, and 48) as described in the specification (Page 18, line 6 to page 19, line 14). Therefore, the obviousness type double patenting rejection has been maintained properly.

### ***Conclusion***

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CAR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CAR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
